DRATA

The Agentic Trust Management Platform

Leverage autonomous AI agents to automate compliance, manage internal and third-party risk, and continuously prove your security posture.

YOUR MISSION CONTROL FOR CONTINUOUS TRUST

Enterprise GRC
Centralize governance, controls, risks, policies, and evidence across the enterprise to stay continuously audit-ready.

Compliance Automation
Automate evidence collection and control monitoring across frameworks so you're always prepared for your next audit.

Trust Center
Give customers a secure, self-serve portal to review your security posture, request access to documents, and receive answers.

AI Questionnaire Assistance
Use AI to draft accurate, consistent responses to security questionnaires based on approved trust content.

Third-Party Risk Management
Simplify vendor onboarding with standardized assessments, automated follow-ups, and one place to track risk.

Drata AI
Take advantage of native AI features and autonomous agents to transform GRC from a defensive necessity into a business enabler.

CONTINUOUS TRUST ACROSS EVERY CATEGORY

Centralize governance, risk, compliance, and assurance in a single platform to transform GRC from a defensive necessity into a proactive business driver that builds trust, accelerates decisions, and supports long-term growth.

▶ Automated Governance

Assign ownership, enforce deadlines, and manage cross-framework tasks to improve accountability, reduce delays, and scale governance.

▶ Continuous Compliance

Automate control monitoring, evidence collection, and mapping to reduce prep time, ensure multi-framework readiness, and enter regulated markets faster.

▶ Integrated Risk Management

Gain full visibility into internal, external, and third-party risk with AI-driven workflows that centralize tracking, accelerate response, and reduce exposure.

▶ Accelerated Assurance

Use customer trust portals and AI-powered questionnaire automation to reduce review time, improve trust signals, and accelerate sales cycles.
